

Clariance and SpineVision are pleased to announce their merger, which will strengthen their position in the fiercely competitive market for spine surgery medical devices.

Lyon, Wednesday June 12th, 2024

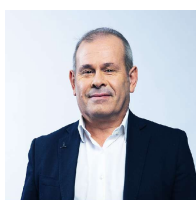

The two companies, both of comparable size and profile, boast highly complementary product portfolios, market presence, and visions.

The combined company will operate under the brand of Clariance SpineVision with headquarters in Lyon (France) and offices in Antony (Paris), a factory in Beaurains (France) and subsidiaries in Dallas (USA) and Milan (Italy).

Clariance SpineVision now possesses a broad product range featuring top-notch products like Erisma[®]-LP, Hexanium[®] and Flex+2[®], and a product pipeline driven by a shared vision for the advancement of enabling technologies.

Due to the merger, the company is expanding its product distribution to over 30 countries. This expansion will help the company achieve a critical mass, enhancing its access to additional resources for strategic initiatives.

Executive perspectives:

Thierry Manceau, Chairman of Clariance SpineVision comments "*The merger with SpineVision represents an exciting opportunity to combine our expertise and product offerings, delivering high value solutions to our customers worldwide. Together, we are stronger and better equipped to address the evolving needs of spine surgeons and their patients.*"

Arnaud Brisard, CEO of Clariance SpineVision echoed this sentiment "*We are excited to embark on this transformative journey with Clariance. Together, our common vision of the market, complementary strengths and geographic presence create a perfect synergy, which will allow us to position as a global leader in spine surgery innovation.*"
